

We specialize in the manufacture and sale of spare parts for all types of shot blasting machines. In particular, we specialize in wear-resistant components for automatic shot blasting turbines.

Over the past 20 years of work and R&D, we have established a reputation for excellence in the quality of our products, which are made using our own materials, and also increasing our list of references. As a result, we currently manufacture and supply spare parts that are compatible with the majority of existing brands including: WHEELABRATOR, DISA, AGTOS, PANGBORN, COGEM, OMSG, ROSLER, SINTO, among others.

Furthermore, thanks to our experience with the wear and abrasion resistant materials and our ability to manufacture bespoke and custom parts, we are confident that we're able to meet your requirements.

•Parts we manufacture for automatic shot blasting machine turbines include:

- Blades and sets of blades with different balancing qualities: wear-resistant castings, tool steels and tungsten carbide.
- Impeller, distributor, Control cage, cage housing
- Liner, wear plate, protection plate, cover, housing: top, side, end...
- Rotor, wheel, disk or blade wheel.
- Wheel housing: body, side, cover, clamps.

AT BLASTPARTS, WE SELL A WIDE RANGE OF HIGH-QUALITY SHOT BLAST SPARE PARTS THAT ARE IN STOCK

OUR COMMITMENT

We work hard to be able to provide spare parts for any machine. That means daily we have quality parts ready and waiting. As soon as an order comes through – we aim to ship right away!

Should you need additional support with installation, inspection, maintenance or breakdown, we offer a rapid response.

Our goal is to provide quality products and services at a time when you need them.
