## PART 01

# Tumble shot blasting machine

The rubber tumblast machines are the ideal way to clean and finish batches of components such as castings and small fabrications.

And it is No-Pit ,easy for installation and operation. All models are self contained and include abrasive reclaim systems, separator and dust collector.

Tumblast machine is able to undertake the following applications:

- Desanding and decoring of castings;
- Descaling of castings, forgings and heat treated parts;
- Shot peening (without process security);
- Deburring of plastic and rubber parts.

### Application & Effect

## PART 02

# Tumble shot blasting machine

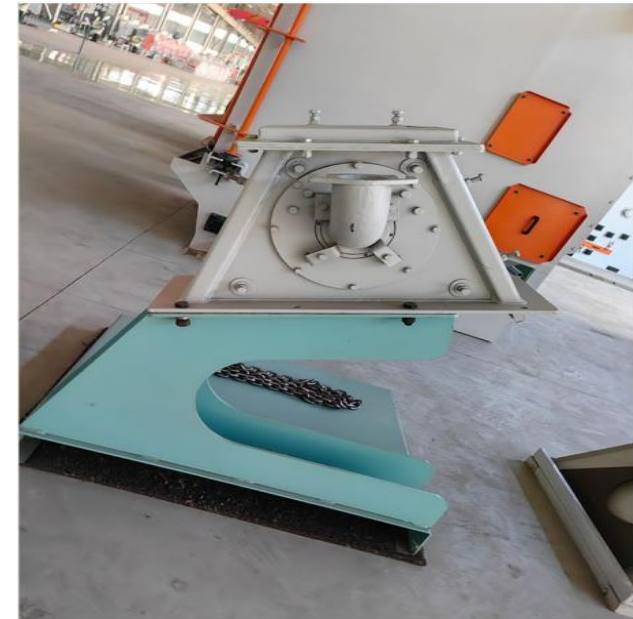

product details

- Model: Automatic
- Power Indicator: Available on control panel

- Rubber belt
- Strong and durable
- High quality rubber materials

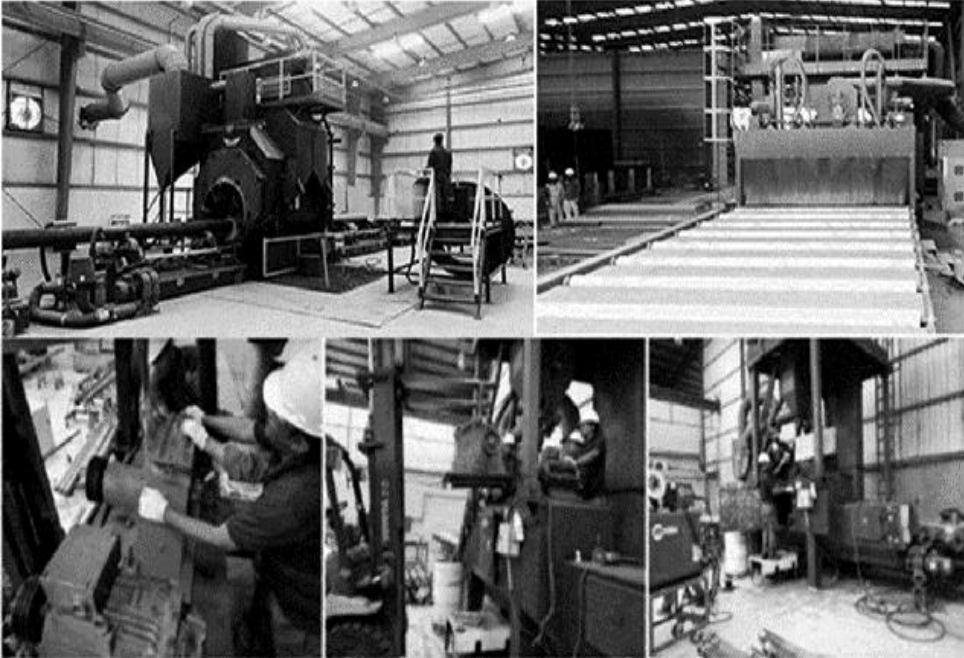

- Large blasting capacity
- High efficiency
- Long service life of wear parts
